Board Hears Report On Local School System

Students of Appomattox County have opportunities which enable them to compete successfully with students from any other school division in the state according to Lloyd Walton, Superintendent of Appomattox County Schools, in a report to School Board Members meeting in regular session on Thursday afternoon of last week.

He further pointed out to members of the board that our school system meets the requirements of the State Board of Education and State Legislature with respects to the Standards of Quality and Accreditation Standards.

In the Thursday meeting, the board approved the proposed school budget for 1975-76 in the amount of $2,735,068., which includes capital outlay and debt service.

Also approved by the board were the addition of two special education classes; two teachers for 5th and 6th grade skills development program in reading and math; one speech therapist; and six other regular positions to relieve overcrowded conditions and to provide for an increase in student enrollment.

Superintendent Walton also stated that the total budget for 1975-76 represented an increase of 6.98 over the 1974-75 budget.

While the Appomattox County Education Association had requested a pay scale from $7,800 for the new teachers to a high of $11,200, Frank Coffey President of the ACEA seemed pleased with the board's approval of salary scale of $7,800 for teachers with no experience to $11,000 for a teacher with 16 years teaching experience to their credit.

In the breakdown of the budget as to source of funds we find 46% of the total budget form the state, 3.6% from the Federal Government (not including Title I); 49.4% from the county and 1.0% from other sources.

Other business before the board receiving approval were funds for four new school buses and increases of $1.00 per day per bus driver and one additional school nurse.

A Maintenance Replacement Program for the improvement of the Appomattox Middle School was approved. Using local people to carry out the plans of this program, the cost is set at $50,000.

Robert Williamson, Principal at AES, second from the left accepted the flag on behalf of the school. Students "making ready" to raise the flag are, left to right, Jeff Porton, Duane Blanks, and Michael Campbell.

We prefer to think that flags are flown in our area because we are a patriotic people, however, state law requires that all schools fly both the United States and the Virginia flags.

Classes will be held each Thursday evening at 7 p.m. for seven consecutive weeks.

The Appomattox County Board of Supervisors meeting Friday accepted a $2,735,068 school budget for 1975-76.

Superintendent of Schools, Lloyd Walton, informed the local supervisors that the budget was planned to meet the requirements established by the State Legislature and the State Board of Education and to provide a balanced and adequate program with the minimum required State expenditures of $730 per pupil in Average Daily Membership.

In other business, the Board waived three sections of the county's rock festival ordinance in order to permit the Appomattox County Jaycees to sponsor a Bluegrass Country Music show at Paradise Lake. The supervisors waived a $5,000 bond, $1,000 per day fee, and the section requiring that a physician be present at all times during said shows. The Jaycee representatives stated that local rescue squads would be on stand-by for the event.

Appomattox County Sheriff, J. E. Richardson, said that he expected no problems from the Jaycee sponsored show, noting that the location was more isolated than the site of the last festival.

Although no date has been set for the festival, Jaycee representative Danny Simpson stated that permission had been obtained from the owner of Paradise Lake, Clayton C. Bryant, to use the property.

He also added that all funds over the cost of presenting the show would go to county projects.

In other business, Sheriff J. E. Richardson brought to the attention of the Board of Supervisors that the Appomattox County Treasurer had received a check in the amount of $10,830.14 from the Virginia State Compensation Board, ⅔ reimbursement for use of County Sheriff Department's vehicles for 1974.

In other action the board declined to accept an agreement with the Farm Home Administration for the inspection of FHA housing in this county. Building Inspector Steve Bowling pointed out that the FHA requirements are more rigid than the state building code. This would entail extensive bookkeeping by county officials with no reimbursement by the Administration.

Nearly 175 Virginia Tech students auditioned for the 7 places available in The NEW VIRGINIANS. Some 32 of them demonstrated superior talent and attitude, and were called back for the group "call back" auditions before the final selections.

Out of 32 young people, the 8 were selected, 6 men and 2 women, all outstanding performers. "I don't think I've ever seen a more talented group of performers than we have in The New Virginians," Kingma noted.

"With the older performers

Heart Fund Drive Short Of Goal

The 1975 Heart Fund campaign conducted in Appomattox during February totaled $2,349.92 in contributions, it was announced last week by Thomas L. Matthews, local Heart Fund Chairman.

The residential drive produced $1,802.92, with mail returns still coming in from families who were not at home when Heart Fund volunteers called, according to Matthews, residential drive chairman.

The chairman expressed hope that anticipated mail contributions will bring the campaign total to $3,000.00. Contributions should be addressed to HEART, care of Postmaster, Appomattox, Va. 24522

Matthews praised the work of local volunteers and the response of area residents.

"The generous response of the residents of Appomattox reflects their increased awareness of the serious nature of the heart and blood vessel disease problem," Matthews said.

"It also demonstrates the public's strong conviction that the Heart Association's programs of research, educational and community service are the major effective way to combat and -- eventually -- to control the nation's major cause of death."
